1 14. Early clients of Call Interactive included *The New York Times*, ABC's *Monday*
2 *Night Football*, KABC Radio, CBS News, and Beatrice Foods (Hunt-Wesson division).

3 15. Many of these clients utilized Call Interactive technology for high-profile events.
4 For example, CBS News hired Call Interactive to operate an interactive, real-time telephone poll
5 to gauge viewer reaction to President George H.W. Bush's 1992 State of the Union address.

6 16. Mr. Katz sold his interest in Call Interactive to American Express in 1989 but
7 continued to provide advisory services to Call Interactive until 1992. American Express later
8 spun off the First Data business unit into a separate corporation, and with that new entity went
9 Mr. Katz's interactive call processing patents and the Call Interactive call processing business.
10 The former Call Interactive, now known as First Data Voice Services, continues to provide call
11 processing solutions today.

12 17. In 1994, Mr. Katz formed Katz Technology Licensing, which acquired the rights
13 to the entire interactive call processing patent portfolio, including the rights to each of the patents-
14 in-suit, from First Data, the owner of all of the Katz interactive call processing patents at that
15 time.

16 18. The marketplace has clearly recognized the value of Mr. Katz's inventions.
17 Indeed, over 150 companies have licensed the patents-in-suit. Licensees include IBM, Hewlett-
18 Packard, Bank of America, JPMorgan Chase, Wells Fargo, HSBC, Verizon, Sprint, Microsoft,
19 Delta Airlines, Merck, Sears, and Home Shopping Network. These licenses and others
20 acknowledge the applicability of the patents-in-suit to multiple fields of use, including but not
21 limited to financial services call processing, automated securities transactions, automated credit
22 card authorization services, automated wireless telecommunication services and support,
23 automated health care services, and product and service support.

24 19. Each of the defendants employs the inventions of certain of the patents-in-suit.
25 Katz Technology Licensing, through its licensing arm A2D, L.P., has repeatedly attempted to
26 engage each defendant in licensing negotiations, but to date, none of the defendants have agreed
27 to take a license to any of the patents-in-suit.
